# Worry-Free Business

## Technology

### ***Security is mandatory!***

As part of our new **Security Suite Offerings**, your technology investments are safeguarded and proactively serviced which allows your business to remain up and running. When your team is productive, you have a competitive advantage in the marketplace and your technology budgets are aligned with your business needs. Our team of consultants and technicians are fully trained and certified in all the latest technologies that your business requires to be successful.

### **Citrus Networking Solutions Group's NEW **Security Suite** has your business covered:**

- **Endpoint Security** (includes Anti-Virus, Anti-Spyware and Firewall)
- **Email Threat Protection** (hosted email security service, Anti-Spam)
- **Email Archiving, Discovery and Recovery** (complete searchable email archive)
- **URL Filtering** (protects users and your business from inappropriate websites and provides full reporting capabilities)

*CNSG Security Suite package pricing is per user  
Also available at ala-carte prices*
